

Discussion Summary

March 4, 2018

1 February 28 Discussion Summary

1.1 wjk68

The assignment was given to us the day before the discussion summary so no members of the group had the chance to start. Therefore, we had no questions to discuss because you generally start to think of questions as you try to complete the assignment. Instead of having a discussion, we used the time in class to start on the assignment. I like the idea of discussions, but they are only valuable if everyone comes prepared with questions, and because we did not have access to the assignment, no one had any questions to discuss.
